

NAME : Madhu Pranesh R
ROLL NO : 713322AD060
DEPT : AI&DS

TASK 3:

Data Scientist Roles Research

1. **Data Translator:**

Bridging the gap between technical data teams and business stakeholders, Data Translators ensure that complex analytical insights are comprehensible and actionable.

2. **Digital Analyst:**

Focused on analysing an organization's digital assets, such as websites and applications, Digital Analysts interpret data to enhance user experience and optimize digital strategies

3. **AI Ethicist:**

As artificial intelligence becomes increasingly integrated into various sectors, AI Ethicists play a crucial role in addressing the ethical implications of AI deployment.
